

Working Title:

Patriotic Places: Insulation has help save energy at some American landmarks.

We are focusing on American projects. Do you have a project that you consider “all American” or a American project that you have completed in the past few years? Have you supplied materials for or worked on a federal building, a stadium, an energy plant, a local supermarket (Main St. America), a food processing plant, a data storage facility? Tell us about it.

Respondents will be featured in the July issue of Insulation Outlook with their headshot and their answers to these questions.

1. Your name and company
 -
2. What was your project? Can we mention the company’s name of the owner?
 -
3. What is the purpose of this plant or facility? (Examples: supermarket, gas processing plant, football stadium, etc.)
 -
4. Retrofit, Maintenance, new construction?
 -
5. What was the motivation for the project? (Examples: energy savings, personnel protection, a greener facility, etc.)
 -
6. What was the scope of the job?
 -
7. What types of systems were insulated?
 -
8. What types of insulation materials were used? Brand names are acceptable.
 -
9. What was exciting or enjoyable about this job? Any particular points of pride?
 -
10. How is this job all American or patriotic?
 -
11. Is there anything you would like to add?
 -

Please email (publisher@insulation.org) or text (703-585-0090) a headshot or selfie. If you have photo of the building or finished project that you are able to use, please include that as well.

Thanks for your interest and participation.

Julie McLaughlin
