

NIA's Introduction to Mechanical Insulation™ Course

This course serves as a thorough introduction to mechanical insulation and the inspection process for mechanical insulation systems in new construction, retrofit, and/or maintenance applications.

NIA's Introduction to Mechanical Insulation

Topics include: a review of the insulation industry market segments; the need and importance of inspection; the purpose of mechanical insulation systems; primary insulation materials and protective coverings; the importance of Safety Data Sheets; and codes, standards, regulations, and guidelines, and how they are intertwined.

Who Should Take This Course

You are qualified to take this course if you have at least 1 year of experience in the following industries: mechanical insulation, commercial and/or industrial construction, process, maintenance, inspection, or related fields.

For more information, please visit NIA's website at www.insulation.org/inspector.

Professional Instructors

Our instructors are certified inspectors, and combined, they have 90 years of experience.

GARRY CAUDILL has more than 40 years of industry experience. He spent more than 20 years with Johns Manville, serving in a wide variety of capacities within JM's insulation businesses from sales management to product, marketing, and channel management.

RON KING is a 50-year veteran of the commercial and industrial insulation industry. He held executive management positions with a national distributor/fabricator, an accessory manufacturer, and a specialty insulation contractor.

Host a Course at Your Office

You can host a course for your employees, members, or clients. This is a cost-effective way to bring NIA's Introduction to Mechanical Insulation™ Course to your location. Hosted courses can be held anywhere within the United States or Canada.

Interested in Hosting NIA's Introduction to Mechanical Insulation Course?

Contact NIA at training@insulation.org for pricing and more information. Discounted pricing is available to NIA members, Gold-Elite NIA Foundation contributors, and engineers.

Hosted Course Benefits

COST SAVINGS

The cost per attendee is less than attending a nonhosted training course.

CONVENIENCE

Choose dates that work for you and your team's schedule.

REDUCED TRAVEL TIME AND EXPENSE

Hosting the training at the venue of your choice helps companies save on large travel expenses such as airfare and hotels, time out of the office, and minimizes disruptions to operations and family life.

TAILOR YOUR HOSTED COURSE

This course can be included as part of a broader internal corporate training for your employees. Companies can pair the course with their own leadership or safety training, allowing the flexibility to focus on specific items that are important to your business.

CONTINUE REGULAR ROUTINES

Courses are structured to allow attendees to take breaks, check emails, and continue to conduct business. In corporate locations, attendees can still interact with coworkers and advance projects.

TEAM BUILDING

A multiday training with employees, representing different job responsibilities, can encourage greater teamwork, awareness, and understanding of each other's roles within the company.

INVITE KEY EMPLOYEES, ENGINEERS, OR CLIENTS

You determine who to invite to receive this certification training. Some companies are planning on starting new inspection departments or businesses, and others are strengthening ties with engineering firms.

INCREASE THE KNOWLEDGE OF YOUR TEAM

Professional development can help raise overall employee expertise. Each attendee taking the course will receive 13 Professional Development Hours (PDHs).

Visit www.insulation.org/hostedinspectorprogram for more information or email training@insulation.org.
