

2022 Manufacturer Product Guide

Below are all the categories listed presently in the Resource Guide section of the *NIA Buyer's Guide: Insulation Products & Providers*. *New categories/subcategories are italicized*. **To be listed in a category your company must publish an SDS and product literature for each product, and in addition, your company name must appear on your product packaging.** Manufacturers Representatives only qualify to select the Manufacturers Representative box and should refrain from checking any product boxes. Consultants only qualify to select the Consultants box and should refrain from checking any product boxes.

- Abatement Supplies (Asbestos/Lead)**
 - Accessories
 - Bridging Encapsulants
 - Lead Paint Encapsulants
 - Lead Paint Strippers
 - Penetrating Encapsulants
 - Protective Clothing & Accessories
 - Removal Agents
 - Sealants
 - Soil Encapsulants
- Acoustical Insulation and Noise Barriers**
- Adhesives**
 - Adhesives for Cellular Insulation (Pipe or Duct)
 - Adhesives for Fibrous Insulation (Pipe or Duct)
 - Hot Melt
 - HVAC
 - Lagging
 - Laminating/Facing
 - Liquid Urethanes (Reactive)
 - Polyurethane
 - Pressure Sensitive (Butyl Rubber & Acrylic)
 - Solvent-Based Contact
 - Spray Insulation/Adhesive
 - Water-Based Contact
- Consulting**
- Duct Insulation**
 - Board
 - Liner
 - Wrap
- Fastening Systems**
 - Adhesive Backed
 - Banding/Strapping & Seals
 - Mechanical Fasteners
 - Non-welded–Stick Clip
 - Screws & Hex Netting
 - Staples
- Welded (Pin & Stud)
- Wire
- Fire Endurance Protection Systems**
 - Accessories
 - Cable Coatings/Blankets
 - Exterior Curtain Wall (ASTM E2307)
 - Fire Endurance Spray
 - Grease Duct
 - HVAC Diffuser
 - Stair-Pressurization Systems
 - Structural, Exterior Wall, Interior Wall, Ceiling, or Duct System
- Firestopping (Through Penetrations)**
 - Accessories
 - Bags, Pillows
 - Cable Coatings & Wraps
 - Composite Sheets
 - Compounds/ Caulks/Sealants
 - Insulation Blankets & Boards (withstands ASTM E119 temperatures)
 - Intumescent Coatings
 - Pipe Chokes
 - Putty & Putty Pads
 - Structural Steel Protective Wraps
 - Wrapstrips
- Fitting Covers & Fitting Insulation**
 - Insulation (Molded, Fabricated, or Blanket)
 - Metal
 - Plastic
- Heat Transfer Compounds**
- Insulated Pipe Access Plugs (Inspection Plugs)**
- Insulating Cements**
 - Alkaline Earth Silicate (AES) Fibers
 - Mineral Wool, Hydraulic Setting, Insulating, & Finishing (ASTM C449)
 - Mineral Wool Insulating (ASTM C195)
 - Refractory Ceramic Fiber (RCF)
 - Spray Applied (ASTM C720)
- Insulating Module**
 - Alkali Metal Silicate (AMS) Fibers
 - Alkaline Earth Silicate (AES) Fibers
 - Refractory Ceramic Fiber (RCF)
- Insulation Blanket/Sheets**
 - Accessories
 - Aerogel Insulation
 - Alkali Metal Silicate (AMS) Fibers
 - Alkaline Earth Silicate (AES) Fibers
 - Felted Silica
 - Fiber Glass*
 - Flexible Elastomeric Foam
 - Microporous Flexible Sheets
 - Mineral Wool
 - Reflective Insulation
 - Refractory Ceramic Fiber (RCF)
- Insulation Board & Block (Rigid / Semi-Rigid)**
 - Alkali Metal Silicate (AMS) Fibers
 - Alkaline Earth Silicate (AES) Fibers
 - Calcium Silicate
 - Cellular Glass
 - Expanded Perlite
 - Fiber Glass*
 - Mineral Wool
 - Phenolic Foam

Form continues on reverse.

2022 Manufacturer Product Guide

(Page 2)

- Polyimide Foam
- Polyisocyanurate Foam
- Polystyrene Expanded Foam
- Polystyrene Extruded Foam
- Refractory Ceramic Fiber (RCF)
- Insulation Fabrication Equipment**
- Insulation—Loose/Bulk Fibers**
 - Alkali Metal Silicate (AMS) Fibers
 - Bulk Alkaline Earth Silicate (AES)
 - Bulk/Packing Mineral Wool
 - Bulk Refractory Ceramic Fiber (RCF)
 - Cryogenic Mineral Wool
 - Microporous
- Insulation Paper**
 - Alkali Metal Silicate (AMS) Fibers
 - Alkaline Earth Silicate (AES) Fibers
 - Fiber Glass*
 - Refractory Ceramic Fiber (RCF)
- Jacketing & Flexible Facings**
 - Accessories
 - All-Service Jacket (ASJ)
 - Aluminum
 - Cloth
 - Finish
 - Foil Scrim Kraft (FSK)
 - Glass Fiber, Scrim, or Mesh
 - Glass Reinforced Plastic (GRP)
 - Laminate Protective Jacket
 - Metal Building
 - Modified Acrylic
 - Nylon
 - Plastic
 - Polyester
 - Poly Scrim Kraft (PSK)
 - Self-Adhering
 - Silica
 - Specialty Textiles
 - Stainless Steel
 - Steel
 - Vapor Retarder
 - Weather Barrier
- Manufacturer's Representative**
- Metal Building Laminated Insulation**
 - Accessories
 - Facings
 - Fiber Glass*
 - Foam Board
 - Mineral Wool Board
 - Rigid Boards
- Miscellaneous (Not Otherwise Mentioned)**
 - Brushes
 - Tools
- Perpendicular Oriented Fiber Pipe & Tank Insulation**
 - Alkaline Earth Silicate (AES) Fibers
 - Fiber Glass*
 - Mineral Wool
 - Refractory Ceramic Fiber (RCF)
- Pipe Insulation Support Systems**
 - Insulated Pipe Supports
 - Insulating Hanger Inserts
 - Insulation Shields/Saddles
 - Spacers/Stand-Off Fixtures
- Prefabricated Insulation Panels**
 - Accessories
 - Insulation
- Preformed Pipe Insulation**
 - Air Space
 - Calcium Silicate
 - Cellular Glass
 - Expanded Perlite
 - Fiber Glass*
 - Flexible Elastomeric Foam
 - Flexible Polyolefin Foam
 - Microporous
 - Mineral Wool
 - Polyimide Foam
 - Rigid Foam Plastic
- Protective Coatings**
 - Anti-microbial
 - Asphaltic
 - Condensation Control
 - Corrosion Control Coatings
 - Fire Resistive
 - Vapor Barrier (Solvent Base)
 - Vapor Barrier (Water Base)
- Vapor Retarder
- Weather Barrier (Breathing)
- Weather Barrier (Non-breathing)
- Removable/Reusable Blankets, Pads, & Covers**
 - Accessories
 - Flexible
 - Insulations
 - Rigid
- Sealants**
 - Anti-abrasion
 - Caulking
 - Cold Storage
 - Duct
 - Foam
 - Joint
- Spray Applied (Pneumatic) Insulation Systems**
 - Alkaline Earth Silicate (AES) Fibers
 - Cellulose
 - Fiber Glass*
 - Foam Plastic
 - Mineral Wool
 - Refractory Ceramic Fiber (RCF)
- Tapes**
 - All-Service Jacket (ASJ)
 - Aluminum Foil
 - Asbestos Abatement
 - Double Coated
 - Duct
 - Foil Scrim Kraft (FSK)
 - Insulation Tape
 - Metal Building Facing
 - Self-Adhesive Gasket
 - Silica
 - Specialty
 - UL 181
- Underground & Direct Burial Piping Insulation**
 - Accessories
 - Insulation Documented for Direct Burial
 - Poured-in-Place (PIP)
 - Pre-Insulated Piping Systems
 - With Compliance to U.S. Navy 96-hour Boiling Conduit Test

*Fiber Glass is defined to include faced and non-faced fiberglass, fibrous glass wool, and glass wool.
