

Mechanical Insulation Manufacturer By Product Type

The following listing of **Mechanical Insulation Manufacturer by Product Type** is exclusive of Manufacturers—Associate members of the National Insulation Association (NIA), www.insulation.org, and is categorized in the same format of Thermal Insulation Materials, contained in the Materials and System Section of the National Institute Building Sciences' Mechanical Insulation Design Guide, www.wbdg.org/midg. The same manufacturer may appear within multiple categories.

A manufacturer is defined as a company that is involved in the production and sale of materials, products, equipment, or services for the commercial and industrial insulation industries. Manufacturers provide innovative solutions to meet insulation and users' specific needs. To be included in this listing, the manufacturer must be a member of NIA and publish a Safety Data Sheet (SDS) and product literature, and its company name must appear on the product packaging.
