## PRE-QUALIFICATION FOR THE PROGRAM

The Insulation Energy Appraisal Program is developed for individuals who have good communication skills as well as the following:

- Experience in the commercial and/or industrial construction, process, and maintenance industry or related fields;
- Ability to read construction drawings and relate them to insulation specifications;
- Understanding of the principles and fundamentals of insulation and insulation systems;
- Ability to recognize potential basic safety concerns during facility visits and insulation system inspections;
- Ability to recognize the different types of insulation products and their basic limitations and proper uses;
- Mathematic proficiency; and
- Computer literacy, including experience working with Microsoft Excel®.

## COMPUTER REQUIREMENTS FOR THE PROGRAM AND EXAM

A computer (PC or Chromebook, but no Macs) with a recent operating system (less than 3–4 years old) that has either Chrome or Firefox, has Microsoft Excel installed, a consistent Internet connection capable of uploading files larger than 3 Mbps, and 10 MB of available space. A web camera and microphone are required for course participation, but this is standard on most laptops.

If for some reason a student is not able to complete the online exam, the student will be allowed to take the exam at the Prov Testing Site (visit <a href="https://tinyurl.com/y7objh2g">https://tinyurl.com/y7objh2g</a> for locations) of their choice within 3 months after the course. NIA encourages students to take the online exam.

This course utilizes Microsoft Excel and students are expected to understand the basics of Excel. Instruction for using Excel is not provided in this course.

## **PROGRAM REGISTRATION FEE**

Company Name \_\_

Based on your NIA membership status, please select one of the following registration fees and enclose payment. *Please Note: IEAP Class size is limited. Paid registrations are taken on first-come, first-served basis.* 

	<b>Discounted Check Rate</b>	Standard Rate
